TOURIST CIRCUITS IN TANZANIA

A concept "Tourist Circuit" denotes a framework within which the different attractions or a number of sub circuits could be developed and linked together based on factors such as accessibility, facilities, supply of resources and products etc

There are two major circuits in the country, the Northern Circuit and a Southern Circuit, each with its own distinctive attractions

I: Northern Circuit:

This stretches from Lake Victoria in the west to Tanga in the east and comprises of three separate zones/groups of tourism assets:

1. The Serengeti, Lake Manyara National Parks and Tarangire National Parks and the Ngorongoro Conservation Area (including Olduvai Gorge).
2. The Kilimanjaro and Arusha National Parks
3. Usambara Mountains, Mkomazi Game Reserve and the coastal area including Tanga, Amboni Caves, Pangani and the Pemba Channel.

II: Southern circuit (SC):

The Circuit comprises of:

1. **Wildlife/Adventure Trail**-the Selous GR, Mikumi NP in north and Udzungwa NP in the west. Ruaha NP and Rungwa GR.
2. **Coastal Heritage Trail**-including Bagamoyo, Kilwa (a great trading centre). Mafia Island (the early Swahili settlements) and Dar-es-Salaam

The likely sub-circuits in this circuit are Iringa (with Udzungwa and Ruaha); Mikuni/ Selous; and Mafia/ Kilwa/ Selous.

III: Western Circuit – still underdeveloped, mainly due to access constraints.
